

Tutroial from this site

1. Italic and Bold

This is how to write *Italic*

And **Bold**

Or ***Both***

2. Header

Head1

Header2

Header 3

3. Links

This is how to write inline link: Search for **it**

This is how to write reference link: Search for this

4. Images The difference between links and images is that images are prefaced with an exclamation point !.

This is inline image.

And an example using reference image:

5. Blockquotes An example using blockquotes:
>He was a **great** man, and he will be *sorely* missed.

6. list example of unordered list:

- Mile
- Milk
- Hamilton
- me
- sheldon

example of ordered list:

1. milk
2. banana

example of nested list:

- USYD

- Engineering
- blablabl
- * BAC

list with paragrah:

1. Crack three eggs over a bowl.

Now, you're going to want to crack the eggs in such a way that you don't make a mess.

If you *do* make a mess, use a towel to clean it up!

2. Pour a gallon of milk into the bowl.

Basically, take the same guidance as above: don't be messy, but if you are, clean it up!

7. Paragrah
hard break:

line1

line2

soft break:(add two space at end of line)

line1

line2

8. Code
Code block

How to write code:

`print("hello")`

Latex:

beta hi

Something

(latex syntax only fir the 2nd one)

9. Table |one|two|three| |-|-| 1|2|3| 4|5|6|

done
